ORDER

IT IS HEREBY ORDERED that the Petitioner's request [Doc. #15] to expand the record is **DENIED**. The Court notes that the amended motion for postconviction relief in case no. ED90286 is already part of the record. The Court's initial review of Petitioner's claims and Respondent's response to the show cause order does not suggest that any of the other requested records are relevant in this action. Should any additional records be required when the Court reviews this case in depth, the Court will order supplementation of the record at that time.

AUDREY G. FLÉISSIÓ
